Vista Loma Team in Kansas City

Home Missions

Not always are we out of the country building but the past couple of months has found us working with teams in Kansas City, assisting Vista Loma with their carpet Project. We then moved on to Memphis, TN to assist Craig McGee in the much successful effort of getting supplies to the Hurricane Katrina victims. Then to Paris, TN to finish their roof. After Paris we moved back to the hurricane recovery and helped coordinate the Gulf Region FCF'ers in their outreach to the coast. We had 75 volunteers working across Mississippi and Louisiana saving the residents over \$335,000 in repairs and clean up.

We are praying that many teams will spring off from this effort as the men go back to their churches with the reports of what they witnessed.

Upcoming Projects:

Nov. 1–5, 2005 Bronze team to Albany, New York

Nov. 28–Dec. 6 2005–Gold team to Honduras

Feb. 2006–Guatemala Gold Team

Mar. 2006–Walipai Reservation project for missionary Bill Easter

Summer 2006 Lithuania Youth Camp

Recovery Effort

I want to thank all the folks in the Gulf Region for turning out and helping your brothers on the coast.

I don't think any of the volunteers realized what a disaster it was until they saw it first hand. There is no better gift you could have given them than the giving of yourself.

It was the largest missions team I have been a part of and everybody did their job just perfect. I know many will want to find out more about Jesus because of your giving.

Many more teams are needed over the next couple of months to do manual labor before the reconstruction can begin.

Please give me a call if you need information on finding a work location.

A church in Mississippi after Katrina

Celebrating a CBC Win

It is hog killing time across Tennessee

A couple of Ranger Outposts have filled their pigs and have requested us to come for slaughter. We are believing that once the pigs are harvested that a new church will be planted with these funds. Some outposts are not satisfied with the weight of their pig and are taking it to the congregation for a special diet of green.

If you missed out on this special opportunity at Pow Wow and want to get your boys fired up for missions, just go out and buy a bank or even better get a five gallon jug! With all your help the Guatemala Church will be built.

Guatemala in 2006

Tennessee will be hosting a Gold Pathfinder team to Guatemala. Missionary James Wiseman has asked us to build a church for the Kékchi Indians. If you are looking to stretch yourself and help someone have a church that they will never have unless we come, sign up for this project. We are scheduled to leave in late February. There are a few slots left to fill this team.

This project will hopefully be funded by the pigs adopted by the TN. Royal Rangers at their pow wow.

Special thanks to Trenton 1st A/G and Whitefield A/G in Ripley, Tn for allowing us to share in their church this month.
