Far East

Sometimes we go places where we can't openly worship or use the name of Jesus. It is still important that we go and share the love of Christ through our attitudes and cares for each other. There are things we can do in these countries which are allowed such as humanitarian efforts or helping with orphanages or schools.

We will be given an opportunity in April to build a playground in one of these restricted areas. If you are interested in being a part of this effort just let me know.

Austria

In September we were blessed to work with a 33 member team from five states. We traveled to Vienna, Austria, and participated in services with the Vienna Christian Center. It was this church that would host the team. They had just purchased a 37 room bed and breakfast house in Gutenstein. It was the goal of this team to make as many repairs as possible in order to host groups coming in the next few weeks. The home will be used for all kinds of retreats. It could be compared to one of our District Campgrounds. Our pastors were able to preach a few services and Cindy got to dazzle them with her beautiful singing. The church members were very interested in the Pathfinder concept and will someday put it in place in their country.

Upcoming Projects:

Jan. 2007 Panama (Gold)	Apr. 2007 Far East (Silver)
Feb. 2007 Philippines (Silver)	May 2007 Bolivia (Silver)
Oct. 2007 Bolivia (Gold)	

Pathfinders Angels

It happened on our free day excursion in Iceland while four wheeling in monster trucks. Just for you off roaders, they had 39 inch wheels and 8 cylinder diesel engines. It was about the middle of the day and we were about to stop for lunch at a small shelter. We had just crossed a 3-1/2 feet deep river to get to the spot. I saw a couple of people barefooted walking around. I didn't think much about it but our driver certainly did. They immediately went to the couple and inquired if they needed help. Boy did they! Seems as though they had just crossed the river on foot and lost all their gear and were soaked to the bone. Our driver got them clothes, and food and warmed them up the best they could. We then loaded them in the 4 wheelers and began searching the river for the lost back packs which we found in about 45 minutes. We invited the couple to share our banquet supper and spend the night at the camp. The next day we got them back to their base camp. It could have been hours or even days before the next vehicle came along.
